INDUSTRIAL & RETAIL SYSTEMS

Retail Weiging & Food Processing

Danway's Retail Weighing and Food Processing division is specialised in providing weighing and Food Processing solutions since 1990 and we have our various supply and installations in and around UAE/GCC Countries. Being an **ISO 9001:2000** company, customer satisfaction through high quality equipment is our prime concern.

A variety of industry verticals markets addressed with this product divisor are the extrusion industry, the food and dairy industry, the bottling and beverage industry, the pharmaceutical industry, the packaging industry and the packaged food industry to name a few.

In the path of continuous improvement, today Danway's Calibration lab is accredited to Dubai Municipality for calibration of weighbridges, Platform scales etc. Accredited Laboratory according to this program meets the requirements of **ISO/IEC 17025**. We have an excellent team of factory trained engineers for the installation, commissioning and after sales service of various packaging equipment.
