ABOUT US

DANWAY GROUP OF COMPANIES, a fully owned subsidiary of Al Nowais Investments, comprising Danway Electrical & Mechanical Engineering, Danway LLC, Danway Industries and Danway Emirates have a long and successful record of delivering expert engineering solutions throughout the GCC.

With full scale and integrated capabilities in Engineering, Procurement, Construction, Fabrication, Testing and Commissioning services during the life cycle of the project across all sectors and representation of diversified electrical and mechanical engineering products of international repute, Danway can ensure delivery of quality and reliable services as a single source solution.

As a multi-divisional corporation, we represent more than 100 world-renowned companies in the areas of electro-mechanical and instrumentation equipment supply and service.

Danway has headquarters in Dubai and branch offices in Abu Dhabi, Oman, Qatar, KSA & Bahrain. As part of its vision to be an internationally respected Engineering and Contracting Company offering comprehensive solutions in the EPC field, DANWAY is actively planning to extend its operations to other countries in the Middle East. To further consolidate its position, DANWAY has implemented ERP solutions from SAP, adopting industries best practices and creating transparency at all levels of the business.

DANWAY operates in accordance with standards ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007 and the company is committed to productive efficiency coupled with quality assurance, workplace health, safety and protection of the environment.

OUR JOURNEY

Meeting and exceeding market demands since its inception in 1976, Danway has succeeded in maintaining secure and sustainable growth over the last 4 decades, transcending into a leading Engineering and Contracting enterprise in the Infrastructure, Industrial, Energy, Oil and Gas sector within the GCC.

OUR JOURNEY TO BECOME A LEADING ENGINEERING ENTERPRISE

MOVING AHEAD WITH THE GUIDING PRINCIPLES OF OUR LEADERSHIP TEAM, WE PRIDE OURSELVES ON HAVING A PRAGMATIC MISSION AND A REALISTIC VISION

OUR VISION

To be an Internationally Respected Engineering & Contracting Company Offering Comprehensive Solutions in the Engineering, Procurement and Construction Field.

OUR MISSION

Committed to Excellence, we strive to offer Top-Notch Engineering Services of High Quality, Efficient, Reliable and Cost Effective.

GUIDING PRINCIPLES

- Customer Satisfaction and Loyalty
- Employee Dignity, Self Respect and Professional Ethics
- Providing Safe and Healthy Work Environment
- Organisational and Individual Growth

ENGINEERING & CONSTRUCTION

Danway Electrical & Mechanical Engineering LLC (Danway EME) was established in **1990**, as an engineering and construction company providing Electrical & Instrumentation services to the Industrial and Infrastructure sectors of the UAE.

The company has now grown to an industry leader executing prestigious projects in the **UAE, OMAN, QATAR, BAHRAIN and KSA**.

Danway EME can provide unparalleled expertise in implementing Electrical, Mechanical & Instrumentation projects on turnkey basis, with in-house Civil and Steel Fabrication capabilities, right from Design Development to Erection, Testing, Commissioning and Maintenance services for the following sectors;

- Energy Sector
- Industrial Sector
- Infrastructure Sector
- Oil & Gas Sector

Danway EME has maintained an impeccable HSE record across all its projects and have been a recipient of several HSE Excellence Awards for Best Contractor on some of the most challenging project sites.

Danway EME operates from its 4,000sqm purpose built headquarters in Dubai Investment Park with branch offices in other regions within the GCC. We are delivering projects targeting high growth markets and sectors that complement our values and capabilities.

ELECTRICAL POWER DISTRIBUTION AND CONTROL

With the power to transform your world, the Electrical Power Distribution and Control business unit caters to the building utility, industrial, infrastructure and oil and gas markets. This business unit provides engineering solutions and products for electrical power distribution, automation, control and low current systems.

THE DIVISIONS WITHIN THE SPECIALIZED BUSINESS UNITS ARE DIVIDED UNDER THE GENERIC PRODUCTS AND SERVICES THAT WE OFFER.

LOW VOLTAGE SWITCHGEAR

We provide power control, distribution boards, Relay panels and intelligent motor control centres, as well as turnkey engineering services with comprehensive technical support and a wide range of solutions from Utility/building oil and gas market segments.

MEDIUM VOLTAGE SWITCHGEAR

This division of Danway offers solutions with locally assembled products up to 17.5kV. The Brands of Medium Voltage switchgear with vacuum technology is locally manufactured and assembled at the Danway factory, a full range of installation testing and commissioning is also provided.

INDUSTRIAL AUTOMATION

Providing solutions primarily for the Utility/Oil & Gas and Water & Sewage segments, our industrial automation division offers an all embracing solution that incorporates PLC, RTU and SCADA systems, a full range of installation testing and commissioning is also provided.

**THE POWER TO MANAGE
ANYTHING – ANYWHERE**

SECURE POWER

We handle projects related to DC systems and emergency lighting systems and offer products such as industrial rectifiers, battery chargers and AC uninterruptible power supply systems.

LOW CURRENT SYSTEMS

In this division we offer solutions for building management systems, access control, CCTV and public address systems.

ELECTRICAL EQUIPMENT AND COMPONENTS

Within this division, we offer retail as well as project-based products incorporating terminals and cable accessories, junction boxes in stainless steel, sheet steel, GRP, polycarbonate and aluminium, cable glands, functional electronic, tools marking systems and cable jointing solutions.

POWER & WATER

The Power and Water team works and coordinates closely with clients to meet their requirements and comply to their specifications, supporting the clients to achieve the project's objective.

Our Power & Water team have the capability to Design, Engineer, Supply, Install, & Commission. Not only limited to that, we also support our client's in the after Sales Services & Maintenance activities.

As part of the Power and Water Division, we offer the below value-added products:

1. Danway branded Diesel Generators
2. Dynamic Rotary UPS (DRUPS)
3. Frequency convertors
4. Pumps
5. Water Treatment Plants
6. Turbine Services and Maintenance

**MORE RESOURCES
BETTER SOLUTIONS**

Our Diesel generators range from 5 KVA up to 2000 KVA, as well as higher rating generators in multiple unit configurations. The company's modular concept ensures scalability. Danway Power Generation division in hand with its principal for DRUPS are capable to provide turnkey solutions for data centres, hospitals, and all projects wherever the stability of the power is critical.

We provide full range of packaged pump sets. Danway is an authorised supplier, and packager for one of the well reputed pumps manufacturer.

Our Water team provides water solutions for grey water, treated sewage effluent, and sewage water treatment plants.

Our Power and Water Team have mastered the art of providing comprehensive solutions ensuring that quality comes first.

ACCESS SYSTEMS & CRANES

Danway has years of experience and can provide a broad range of professional, high quality and cost effective solutions for the access system and crane industry.

Our highly skilled team has years of experience and are used to dealing with different types of projects from small custom-built installations to projects of a large scale and/or servicing and repair of existing equipment.

OUR SERVICE TEAMS OFFER PROFESSIONAL, COST-EFFECTIVE ANNUAL MAINTENANCE CONTRACTS AND REPAIR WORKS FOR CRANES, HOISTS AND FAÇADE MAINTENANCE SYSTEMS.

Total In-house solutions for all types of Building Access & Hoist Systems. Design, Engineering, Manufacture & Installation;

- » Roof Parapet Mounted Davits
- » Wall Mounted Monorails
- » Inverted Monorails
- » Trackless Trolley
- » Telescopic Trolley (Fixed / Powered Traverse)
- » Track Trolley (Fixed / Powered Traverse)
- » Access Systems (Temporary Cradle)
- » Aerial Working Platform
- » Car Park Fabric Shades & Tensile Fabric Shade Structures
- » EOT Crane & Gantry Cranes

- » Crane Kits & Monorail Hoist System
- » Ex proof Cranes for Hazardous Areas
- » Aluminium Works – Doors and Windows
- » All types of non-structural metal works including steel handrails, pergolas, canopies and other steel structures

Serving discerning clients through a unique level of expertise, our engineering and design proficiency applies just as well to both new equipment and maintenance markets; the latter a sector where our flare for innovation is often called upon to provide effective solutions to problems in unusual operating environments.

Danway's technology and equipment are there to meet your challenges, from complete façade access for high and low rise buildings to self-propelled or fixed aerial platforms for high and complicated structures onto roof or wall mounted monorail systems.

INNOVATIVE PRODUCTS USING TODAY'S TECHNOLOGY

The Industrial and Retail systems (IRS) offers numerous products that cater to both the retail and the manufacturing sectors. IRS offers industrial weighing, weighbridges, Belt scale, Inspection products, marking and coding, packaging technology.

Auto ID & POS Solutions – We provide wide range of solutions in Auto ID and POS comprising Barcode & Receipt Printers, Consumables, Barcode Scanners, Mobile Computers, RFID

In the path of continuous improvement, today Danway's Calibration and Measurements Laboratory is accredited to ISO 17025 standard by EIAC. One scope covers force, pressure, dimensional, electrical temperature and mass.

12

SALES AND SERVICE OF BELOW LISTED PRODUCTS:

- » Truck Weighbridges, Axle Weigher, Industrial Platform
- » Tank & Hopper Weighing System, Portable and Crane Scale
- » Belt Scales, Conveyor Magnet, Magnetic Separators
- » Metal Detector, Checkweigher, X-ray Detector, Marking & Coding Printers
- » Packaging Solutions, Label Applicator, Pallet Wrapper, Carton Sealer, Strapping Machine
- » All types of sieving & foltering solutions
- » Avery Berkel Retail Scale, Food Processing Equipment, Chicken Rotisseries
- » Barcode Printers and Scanners, Consumables, Mobile Computers, RFID devices, POS Systems, Software Solutions
- » Head Protection, Eye wear, Respiratory Protection (3M), Hand protection, Fall Protection, Safety Shoes & Clothing
- » Calibration of Weighing Scale, Pressure, Dimensional, Electrical Temperature and Mass

Belt-Way Conveyor Belt Scales

AN ASSURANCE OF DEPENDABLE SERVICE

The role of our after sales department is of paramount importance and we employ an extremely, vibrant and motivated team of qualified, well experienced engineers to ensure absolute product support and maintenance.

However well designed and manufactured the equipment is though, it is inevitable that through wear and tear, there will be times when your equipment will need servicing and some parts may need replacing to ensure uninterrupted

and optimum performance. This is why we have created an aftermarket department available to help make your service experience as seamless as possible.

An inventory of spare parts and consumables, a purpose built electronic, workshop, specialised tools and equipment, as well as in-house software support and operations, as per ISO 2008 9001 : standard, all combine to provide our clients with the utmost satisfaction.
